ENGINEERS REPORT OF THE SUNAPEE
FIRE DEPARTMENT, 1955

In 1955 the Fire Department answered six box alarms and twelve still alarms. We had three destructive fires but the buildings and contents were insured.

Our apparatus and Fire Station are in good condition. We have added some new Hose and other equipment this year.

We have had installed six red telephones to assist in reporting fires, to take the place of Box 19 formally operated by the telephone operator.

Now all fires reported by telephone should be dialed Rog. 3-5521.

We wish to thank the Townspeople and summer residents for their co-operation.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Sunapee:

I submit herewith my eighth annual report as Superintendent of Schools.

TEACHERS

The problem of a shortage of competent, qualified teachers should be a concern of all parents. It would appear that there are some serious weaknesses in the general structure of salaries in the teaching profession. For example—

- a. the general level is too low—competent people, especially men can earn far more in other fields
- b. the rate of advancement is too slow—able people can move up faster in other occupations in the first five to ten years
- c. too often promotion is not based on performance—as the best and the mediocre move up the salary scale together
- d. top salaries are too low—the spread from bottom to top has narrowed—there is little reward for outstanding people

Last year the following tentative salary maximums were set up for Sunapee:

No Degree	\$3,450
Bachelor's Degree	\$3,750
(4 yrs. College Training)	
Master's Degree	\$4,050
(5 yrs. College Training)	

No attempt has been made to establish the rate at which teachers will advance to these maximums. With an outlook of a continued scarcity -- it is generally agreed that the starting salary in New Hampshire next year for beginning teachers with 4 years of college training will be at least \$3,000.00 -- it is likely to develop that these established maximums will need to be revised in the not-distant future. It is obvious that good teachers must be rewarded in order to be retained.

SCHOOL PLANT

Special maintenance projects carried on in addition to the regular summer and vacation cleaning program of the custodian included: refinishing of tablet arm-chair tops, re-surfacing two sets of stair treads, painting the Principal's Office, Room 8 and one stairwell area, cutting a door-way from the Language room into the Library, sanding and refinishing the floor in the 7th and 8th grade room. The hot water tank was replaced with a tankless heater. (This has a 1465 gallon capacity and would provide an adequate hot water supply for a dishwasher and additional showers -- if added in the future.)

NEW EQUIPMENT

The major items of new equipment include:

- 25 Folding Chairs for the Auditorium
- 1 Table for Home Ec. Dept.
- 30 Desk and Chair Units (With plastic tops)
for Grade 7 and 8 Room

SCHOOL BOARD ACTIONS

The final payment has been made on the \$12,000.00 Repair and Equipment Notes, used to finance the new heating plant and the installation of flourescent lighting throughout the building.

A policy for Theft Insurance was taken out as a protective measure.

It is expected that Dr. John Ohler will serve as the regular School Physician next year. His services would be on an agreed salary basis for which he would give physical exams to students participating in athletics as well as the regular physical exams for alternate classes. In addition, he would make periodic visits to the school to check on health matters.

HOME ECONOMICS FACILITIES

For several years the present Home Economics facilities have been a subject of consideration. The equipment and lay-out are not considered up-to-date or convenient.

It is planned to make a study of these facilities during the coming year and receive the recommendations of experts in this field. It is probable that these will include the suggested removal of the partition between the small Sewing Room and the Kitchen area as well as setting up Unit kitchens as working areas for groups of students.

Next year, suggested plans and prices for remodeling this Home Making Area will no doubt be presented for your consideration.

SOCIAL SECURITY

Social Security Coverage Articles to permit non-teaching personnel to be covered by Social Security are again included in the Warrant. (Teachers are now covered by the Teachers Retirement System. Although this coverage was voted to non-teaching personnel in 1955, there were a number of changes made by the State Legislature in 1955 and the Attorney General's Office has ruled that Districts must vote again on this matter.

I wish to express my appreciation for the cooperation received during the past year from the school staff, together with the loyal support of the School Board, and the continued interest of the other citizens in the welfare of the schools.

Respectfully submitted,
GORDON B. FLINT, Supt. of Schools

REPORT OF THE HELPING TEACHER

In this second year of rendering a variety of services to the schools in the five districts comprising Supervisory Union No. 43, your Helping Teacher has continued to pursue these broad objectives: (1) to work with all school personnel on matters designed to foster educational growth and development of children; (2) to give helpful assistance to teachers with problems of pupil adjustment, achievement, and promotion, as well as with problems involving teaching methods and techniques; (3) to provide resources and materials which make the teaching of all children in the classroom more meaningful and effective.

The cooperation, understanding, and confidence placed in me by all educational personnel with whom I come in daily contact have helped to bring the work of a Helping Teacher more clearly into focus. With deep appreciation for this encouragement, the following briefly outlines some of the responsibilities I have been happy to share:

1. THE TESTING PROGRAM -- Administering, scoring, and interpreting individual and group tests in achievement and intelligence have helped to determine the educational needs and some measure of mental abilities of pupils.
2. VISITING THE CLASSROOMS -- Visits are made with an established purpose and make it possible to share the physical, emotional, and educational atmosphere of the classroom. Follow-up conference with teachers, when deemed necessary or desirable, are intended to exchange ideas and to promote instructional improvement.
3. PROVIDING RESOURCES AND MATERIALS -- Through Newsletters, bulletins, and other memoranda, a variety of teaching aids, notices, announcements, and other pertinent items are called to the attention of teachers.
4. PARTICIPATION IN MEETINGS -- Whether a formal staff meeting, an informal chat with an individual, participation in PTA discussions, or attending other educational conferences, such meetings cover a wide range of topics and are aimed at reviewing principles of teaching, improving instruction, or interpreting the school program.
5. FILMSTRIP LOAN PLAN -- The preparation and maintenance of a filmstrip library is meeting with increased interest and use; it is aimed at providing enrichment in teaching through use of audio-visual aids.

This work of helping teachers is interesting, varied, and constantly on the alert for new and better ways to help teachers help children. These services are sought by teachers in varying degrees, depending upon experiences, needs and problems they

meet from day to day. The cooperative spirit displayed by all teachers and the mutual interest in the best education for all make the work of the Helping Teacher a purposeful pursuit.

Respectfully submitted,

ALPHONSE J. SOUCY
Helping Teacher

The Women's Club purchased for the school a three-speed record player along with a number of new recordings. The gift has been greatly appreciated.

I would like to take this opportunity to thank my staff for the

fine cooperation they have given me in the past year. I only hope that we will be able to keep the present calibre of instruction in the years to come when good teachers are going to be increasingly difficult to obtain.

I would also like to thank the townspeople for their willing support of the school program and again extend to them, through you, a cordial welcome to visit their school.

Respectfully yours,

DAVID W. SHERBURNE
